# Your Home Your Style

The finishing touches can make all the difference when it comes to creating your dream kitchen. Caple sinks are made in ceramic, granite or stainless steel and our taps range from the classic to the hi-tech. They bring your kitchen to life by combining practicality with style, whatever your taste or budget.

Whatever kitchen design you've decided on, Caple has the perfect sink and tap to set it off. Making some key decisions now will help you find just the right combination.

# The Choice is yours.

## THINK ABOUT SINKS

People use sinks in many different ways.

Do you require a drainer? How many bowls do you need and what sizes will be most useful? How about the space you have available? Now turn your attention to style. What will go best with your kitchen? Finally, you need to choose the finish – traditional ceramic, contemporary stainless steel or practical granite?

**CE** Caple products are manufactured to the highest standards, all of our sinks are tested to BS EN 13310:2015 and CE certified.

### UNDERMOUNTED SINKS

Mounted beneath the worktop, which is cut to fit the size of the bowl. A distinctive, fully integrated look in ceramic, granite and stainless steel. Taps are can be mounted into the worktop behind the sink. Granite, solid surface or wooden worktops are compatible with undermounted sinks.

### FARMHOUSE SINKS

They can be installed under the worktop with the front face visible - to accommodate the depth, you'll need a short height cabinet. A period Victorian design - traditionally ceramic but also available in contemporary granite. Usually mounted into the worktop, although some sink models allow for them to be fitted to the sink. Granite, solid surface or wooden.

### INSET SINKS

The feature lip around the sink's edge fits on top of the worktop. With finishes available in ceramic, granite and stainless steel. Taps are fitted to the sink itself, however, individual bowls may require the tap to be mounted into the worktop. Granite, solid surface, wooden or laminate worktops can be used with inset sinks.

# Traditional Tastes.

Often the heart of the home, the traditional kitchen is warm and inviting. With elegant detailing and subtle design elements it has a comforting, old world charm.

## AN ABSOLUTE CLASSIC

If your kitchen is traditional or country style, you can't go wrong with a classic ceramic. You can choose from the ever-popular and practical farmhouse style for more subtle and sophisticated designs in many shapes and sizes.

## MODERN TWIST

Although ceramic sinks are notably traditional in appearance they are also beautifully adaptable. Why not pair a single bowl Belfast with a contemporary single lever spray tap to give a fresh take on a classic look.

## SUITABLY SIZED

They don't come more traditional than the generously proportioned sit-on sinks. Or a smooth and sophisticated inset design might be more to your taste. Whichever you choose, ceramic sinks are hard-wearing and easy to maintain with their smooth, gleaming white glaze.

# Modern + Minimal.

The last thing you want from the kitchen you choose today is for it to go out of fashion tomorrow. But smartly designed contemporary styling retains its freshness through clean lines, bold colour and striking aesthetics. Where do you start when choosing a contemporary sink and tap?

## PROFESSIONAL PULL-OUTS

Try an industrial look with a pull-out or choose a slim line tap for that fresh, contemporary feel. Modern styling is all about contrasts so you can mix and match to your heart's content.

## PICK AND MIX

In the spirit of modernity, why not combine different shapes and sizes? Mix bowls together to reflect your individuality and add the ultimate designer tap for a real talking point.

## 3 IN 1

Perfect if you are always on the go, 3in1 taps supply fresh cold water, regular hot water and filtered 98°C steaming water.

## NATURALLY GOOD LOOKING

The practical granite sink has become a style icon. Quite right too, as it offers you immense durability, and comes in an array of glamorous colours.

## LIFETIME GUARANTEE

All Caple sinks have a free lifetime guarantee against manufacturing defects as standard, giving you complete confidence when you buy Caple.

Subject to T & C's.

# Ceramic Sinks

---

At home in any kitchen, a ceramic sink offers you the simple elegance of a bygone era, yet can look the part in the most contemporary settings.

# Farmhouse Sinks

These time-honoured classics will stand the test of time in today's busy kitchen. Their generous proportions are perfect if you want to make a sizeable design statement.

A selection of our handmade ceramic sinks are specially glazed to reduce surface bacteria by 99.99% preventing germs from spreading. Unlike a thin coating, the anti-bacterial glaze will last the lifetime of the sink and is safe to use in every environment.

Each sink is hand finished, so no two sinks are ever alike - sizes may vary by plus-or-minus 2%. We recommend measuring the actual sink before fitting.

## MATCHING METALLICS

With our range of metallic wastes and overflows you can match your sink accessories to your chosen tap. Fits any sink with a 90mm waste outlet. Take a look at all the finishes on pg 86.

## CERAMIC DRAINER

## BELFAST 600

### CPDRAINER

#### FEATURES

- White
- Freestanding to sit on counter top
- Fluted design
- Weight 20kg

# Undermounted + Inset Sinks.

Choose from inset or undermounted ceramic sinks to make a distinctive style statement. A classic yet contemporary look that exudes elegance and fits easily into many different styles of kitchen.

## UNDERSTATED STYLE

Fully integrated beneath the worktop, undermounted sinks give a very distinctive look to your kitchen. Used with granite, solid surface or wood worktops.

## KEEP ON TOP OF IT

With their gently raised lip and smooth lines, inset sinks blend subtly and discreetly onto your worktop surface. Available in many shapes and sizes, this versatile style drops seamlessly into any kitchen.

ACCESSORY OPTIONS

# Individual Bowls.

Round, square, rectangular, there's a shape and size to complement your kitchen perfectly. Or pair two bowls of your choice for a unique style.

Our elegantly proportioned individual ceramic bowls are more than just practical and hard wearing. They give you complete design flexibility, so you can choose the size, shape and number of bowls to suit your lifestyle.

For a clean and classic look, try our traditional round bowl. For something chic and contemporary, how about a single ceramic bowl paired with a gold tap with matching overflow?

### MATCHING METALLICS

With our range of metallic wastes and overflows you can match your sink accessories to your chosen tap. Fits any sink with a 90mm waste outlet. Take a look at all the finishes on pg 86.

# Granite Sinks

---

These are practical and beautiful sinks to cope with the demands of everyday living. Granite is synonymous with durability and can also offer you an array of stylish colours to match your décor.

# Material Innovation

Our range consisting of families are made from Geotech, which is available in six sophisticated colourways. Our stunning Black and Anthracite finishes are infused with a sparkling metallic fleck, guaranteed to add a touch of glamour to your kitchen. Desert Sand has a warm, natural feel if you're looking for understated elegance and Chalk White's rich white tones provide the ultimate in relaxed sophistication. If you prefer a slightly industrial, yet ultra modern tone, Grey or Pebble Grey is perfect to create this look.

**AN – ANTHRACITE**  
[METALLIC]

**DS – DESERT SAND**  
[MATT]

**CW – CHALK WHITE**  
[MATT]

**PG – PEBBLE GREY**  
[METALLIC]

**BK – BLACK**

## KIND ON THE ENVIRONMENT

Geotech is made up of around 80% natural materials and manufactured using low energy consumption.

## HIGHLY DURABLE

Produced to be extremely hard-wearing, it takes the knocks and scrapes of daily life in its stride.

## NATURALLY GOOD LOOKING

These sinks offer the beauty of natural stone, yet can be moulded into an unlimited number of inspiring designs.

## KEEPS ITS COLOUR

Completely colourfast, the metallic and matt colour finishes will both stay fresh and vibrant.

## STAIN RESISTANT

Geotech is resistant to permanent staining. As long as it's cleaned regularly, it won't discolour or stain.

## CUT-RESISTANT

Both cut and scratch resistant, Geotech will retain its unblemished surface through thick and thin.

# Stainless Steel Sinks

---

Stainless steel has been the automatic choice for professional cooks over many years. Why not make it yours? It is tough, resilient and highly practical – and in our range of styles and shapes it looks sensational too.

## Inset + Sit-on Sinks

### FAMILY BUSINESS

Sinks are grouped into families, making it easy to find the style and bowl combination to suit. Each set feature drainers, with a distinctive pattern for a unique look.

### LOW PROFILE

Low profile sink edges create a seamlessly, sleek look. Choose a sink featuring a low profile edge of 1mm or less to achieve a smooth, almost flush, appearance.

### TO THE LEFT?

Do you need a drainer on the left or right side? With many of these sinks you have the flexibility to choose. For a conventional look, go with a single bowl with drainer. Or for something a little different, try a one and a half bowl.

### PERFECT FIT

Inset sinks are the only sink that can be neatly fitted into any surface type.

# Axle Inset + Undermounted Sinks

Beech chopping board + stainless steel colander

With a choice of two sizes, each sink includes a steel colander and a wooden chopping board, both of which are specially designed to fit the bowl perfectly.

Each accessory sits side-by-side on a small ledge making it quick and easy to chop, drain and rinse freely.

Axle sinks are ideal for apartment living, freeing up valuable worktop areas when space-saving is key.

**LOOKING SHARP**

The clean lines and minimalist styling of our Zero sinks suit modern kitchens to a tee. Featuring a unique angular bowl with a zero degree radius and tapered base, they'll take your designer kitchen to a new level.

**PERFECT FIT**

The striking geometric bowls come in many sizes and can be inset or undermounted for countless creative possibilities. With multiple bowls and a sleek shallow drainer also available you can let your imagination run riot.

Team a Zero bowl with a matching drainer, adding a unique touch to your kitchen. If you're really out to impress why not try a combination of two Zero sinks and a matching drainer.

# Zero Individual + Multiple Bowls

For the razor-sharp, minimalist look adopted by designer kitchen aficionados, nothing is better than Zero. These bowls feature crisp edges and clean lines in an uncluttered design.

**IT'S ALL IN THE DETAIL**

Opt for inset fit for the MODE175/GD to reveal a 3mm edge with gold detail around the perimeter of the sink. It's the small details that can make the biggest impact.

**PVD COATING**

All our metallic sinks, taps, wastes and overflows are coloured using physical vapour deposition. PVD refers to a variety of thin film deposition techniques where solid metal is vaporized in a high vacuum environment and deposited on electrically conductive materials as a pure metal or alloy coating. Commonly used on high end watches and formula one cars, PVD is most effective way to colour metal.

# Form Individual + Multiple Bowls

With its rounded design the Form collection combines the advantages of stainless steel with traditional styling.

The charming, individual bowls come in a selection of shapes and sizes. Or if you want a more personalised combination of sinks you can choose from our multiple bowl options.

You have the choice of an undermounted sink for use with wooden, granite or solid surface worktops, or one of our inset models that can be used with laminate surfaces.

Crafted from stainless steel, Form sinks will keep their good looks whatever you throw at them. Practical, stylish and functional, this collection meets the most demanding kitchen criteria.

- Max. sink thickness 20mm

**WASTE KIT**  
BSW/BS2

- 90mm brushed steel finish basket strainer waste
- Max. sink thickness 20mm

**WASTE KIT**  
BSW/BSTEEL

- 90mm black steel finish basket strainer waste
- Supplied with round and square matching overflow
- Max. sink thickness 20mm

**WASTE COVER**  
BSW/CO

- 90mm copper finish basket strainer waste
- Supplied with round and square matching overflow
- Max. sink thickness 20mm

**WASTE KIT**  
BSW/GD

- 90mm gold finish basket strainer waste
- Supplied with round and square matching overflow
- Max. sink thickness 20mm

**WASTE COVER**  
BSW/GM

- 90mm gunmetal finish basket strainer waste
- Supplied with round and square matching overflow
- Max. sink thickness 20mm

**WASTE KIT**  
BSW/CH4

- 90mm chrome finish basket strainer waste
- Max. sink thickness 20mm

**WASTE COVER**  
BSW

- Caple basket strainer only

**WASTE COVER**  
CWC2

- Basket strainer waste decorative cover

**WASTE KIT**  
WASTE/033

- 90mm copper finish basket strainer waste and overflow

**WASTE KIT**  
WASTE/034

- 90mm gunmetal finish basket strainer waste and overflow

**WASTE KIT**  
WASTE/042

- 90mm gold finish basket strainer waste and overflow

**WASTE KIT**  
WASTE/043

- 90mm black steel finish basket strainer waste and overflow

**65MM STAINLESS STEEL BASKET STRAINER WASTE**  
CAP/BSW/SS

- Waste and plug
- For Belfast sinks with 65mm waste outlet

**65MM STAINLESS STEEL WASTE**  
CAP/PW/SS3

- Waste and plug
- For Belfast sinks with 65mm waste outlet

**90MM STAINLESS STEEL BASKET STRAINER WASTE**  
BSW/OF/SS3

- Supplied with overflow connection and blanking plug
- Basket strainer waste can be purchased without connection and blanking plug [BSW]

**65MM SLOTTED BASKET STRAINER WASTE**  
CAP/SL/CH

- For Belfast sinks with 65mm waste outlet
- Supplied with chrome plug, chain and screwed stay
- For sinks up to 80mm thickness

**OVERFLOW KIT**

CPOF500 - Chrome  
CPOF600 - Stainless steel

- CPOF500 with chrome basket strainer waste [BSW/CH4]
- CPOF600 with stainless steel basket strainer waste [BSW/OF/SS3 or BSW/BS2]

**OVERFLOW KIT**

CPOF7

- Both round and rectangular backplate connections
- Round chrome plated grill only
- Flexible tube and bolt

**1 BOWL PLUMBING KIT**  
CPK100

- Provision for washing machines and dishwashers
- Water seal P trap

**2 BOWL PLUMBING KIT**  
CPK200

- Provision for washing machines and dishwashers
- Water seal P trap

**SQUARE OVERFLOW WASTE KIT**  
CPK1501

- Stainless steel
- 90mm basket strainer waste
- Square overflow

**SQUARE OVERFLOW WASTE KIT**  
CPK1901 - Chrome  
CPK2501- Brushed steel

- 90mm basket strainer waste
- Square overflow

**ROUND OVERFLOW WASTE KIT**  
CPK501

- Stainless steel
- 90mm basket strainer waste
- Round overflow

**WASTE AND BOWL CONNECTION KIT**  
CPK400

- Stainless steel
- 90mm basket strainer waste and 60mm waste and plug
- No overflow

**WASTE AND BOWL CONNECTION KIT**  
CPK801

- Stainless steel
- 2 x 90mm basket strainer wastes
- Round overflow

**WASTE AND BOWL CONNECTION KIT**  
CPK1101

- Stainless steel
- 90mm basket strainer waste and 60mm waste and plug
- Round overflow

**WASTE AND BOWL CONNECTION KIT**  
CPK2701

- Stainless steel
- 90mm basket strainer waste
- Round overflow

VAPOS 3IN1	096
PURITI	102
PULL OUT + SPRAY	108
SINGLE CONTROL	115
DUAL CONTROL	127

### 5 YEAR GUARANTEE

All Caple taps come with a 5 year guarantee.

Subject to T & C's.

# What's Your Type?

## VAPOS 3IN1 STEAMING WATER TAP

Whether you want to make a hot beverage, blanch vegetables or reduce boiling time for pasta, Vapos 3in1 taps have an instant supply of 98°C steaming water. As well as a supply of fresh cold water and regular hot water. And, the incredibly advanced filtration system means it provides the best water quality possible.

**caple**  
PURITI

With a Caple Puriti filter tap you can have ordinary hot and cold water, as well as purified water from one single fitting – as an extra lever diverts water through the filter. The activated carbon filter removes chlorine, rust and sediment so you can feel better about the water you consume. You might also find it improves the taste! Each filter lasts approximately six months and can easily be changed without tools.

To order your replacement filters go to [www.caple.co.uk](http://www.caple.co.uk) for next day delivery.

## SINGLE CONTROL

Simplicity itself, with everything controlled by a single lever - move it left and right for temperature, or up and down for pressure.

## PULL-OUT SPRAY

The only tap for professionals, our stylish range is brilliantly designed, with some models providing a minimum pressure rate of 0.3 bar.

## DUAL CONTROL

Added control and ease of use, with a dedicated lever controlling both hot and cold water.

# The Inside Story.

Taps aren't as simple as they look. How they work can be quite technical. Before you make your choice here are some things to consider.

## WRAS APPROVED

The Water Regulations Advisory Scheme (WRAS) is the UK Water Industry's approval scheme.

Our range of WRAS approved taps have been fully tested and are fully compliant with the requirements of the water regulations and byelaws. WRAS Approval is considered the best way to demonstrate compliance as it is granted directly by representatives of the water suppliers and is therefore accepted by every water supplier in the UK.

## WATER PRESSURE

Some taps need more pressure than others to flow at the same rate. A pressurised water heater system will provide enough water pressure for any of our taps. However, an unpressurised system may not. You will need to calculate the pressure before choosing a tap that has a minimum requirement - otherwise it might not work properly. To do this, measure how far the water tank is above the tap in metres and divide by 10. This gives the water pressure in bars. Remember that any bends or junctions in the pipework will reduce the pressure.

If you are not sure how to calculate your hot water pressure, ask your plumber. Water pressure can be increased by adding a separate water pump.

## VALVE TYPES

You can choose from many different valve options to control how your tap works. In a single lever model, the lever is moved in two directions to control the tap. Other types of tap use either basic compression valves or the superior quarter turn valves that respond quicker.

## WATER EFFICIENT CSH COMPLIANT TAPS

We have developed a collection of taps specifically designed to conform to Water efficiency requirements. These taps have a flow rate of 4 litres per minute or less when measured at 3 bar of pressure. Look out for the water efficiency logo.

# 3in1 Steaming Water Taps.

3in1 taps supply fresh cold water, regular hot water and filtered 98°C steaming water, the perfect temperature for preparing tea, blanching vegetables and assisting the cooking of pasta or rice.

Water conditioning technology provides exceptional accuracy for scale and acidity control for increased boiler protection, this means outstanding food and beverage quality.

Quick and simple installation allows the tap, filter and boiler to be easily retrofitted. Finished in stunning stainless steel, Vapos taps exude style and practicality.

## PROGRESSIVE VALVE

Control your Joya 3in1 tap with a simple rotating motion. The water flow starts cold and gradually gets warmer. The more you turn the control, the hotter the temperature whilst the water pressure gradually increases.

## OUTSTANDING WATER FILTRATION

Offering a new standard of water filtration technology, providing extraordinary accuracy for scale and PH control. This water filtration and conditioning technology effectively combines hardness reduction, mineral stabilization and corrosion inhibition by maintaining a controlled low carbonic acid level in the water.

It delivers the best available water quality for hot drinks by removing lime scale build up in the boiler [provided filters are installed and maintained/exchanged in line with manufacturer recommendations].

It includes DuoBlend® valve technology for the most accurate bypass ratio and a 5µm Carbon block membrane for particle protection, reducing tastes and odours such as chlorine and chlorine by-products, THM's, PAH's and pesticides such as Simazine, Atrazine, Lindane and Dieldrin. Each filter lasts approximately six months and is easily changed without tools.

Order your replacement filter cartridge [PURIT13] or full fitting kit including the cartridge [PURIT14] at [www.caple.co.uk](http://www.caple.co.uk) for next day delivery.

## LARGE BOILER

A new large boiler capacity means 3.5 litres of steaming water is ready for use whenever you need it. With a temperature range of 25°C - 98°C it uses less electricity than a 40W light bulb.

All caple accessories are available to buy online at [www.caple.co.uk](http://www.caple.co.uk)

# So, Here's The Technical Bit...

The cold water from your water supply passes through the filter into the 3.5L boiler. The water temperature can be easily adjusted from 25°C - 98°C to suit your requirements by simply turning the dial located at the front of the boiler.

For steaming water use the smaller lever on the left hand side of the tap. Push down the lever to release the child safety mechanism then turn and hold to start a steady flow of steaming water, when you are finished the unique spring loaded lever automatically shuts off the steaming water.

It couldn't be easier to change the filter. There is no need to cut off the water supply, just twist the used filter to release it - this automatically isolates the water supply making it easy to twist the new cartridge into place.

All Caple accessories, including replacement filters and fixing kits, are available to buy at [www.caple.co.uk](http://www.caple.co.uk) for next day delivery.

Diagram above shows Vapos 3in1 steaming hot water tap.

## JOYA 3IN1

Stainless STEEL

JOY3IN1/CO - Copper

JOY3IN1/GD - Gold

JOY3IN1/SS - Stainless Steel

### GENERAL FEATURES

- Solid stainless steel with metallic PVD coating
- Supplies fresh cold water, regular hot water and filtered 98°C steaming water
- Includes touch control pressurised boiler
- Water conditioning technology providing exceptional accuracy for scale and acidity control for increased boiler protection, plus increased food and beverage quality.
- 3.5Ltr tank, up to 120 cups per hour
- Temperature range of boiler 25°C - 98°C

### TAP FEATURES

- Minimum 0.5 bar pressure required
- Safety mechanism for steaming water control
- Progressive valve hot/cold control
- Cool touch spout
- Separate flow for steaming water

### OPTIONAL EXTRAS

- PURIT13 Replacement filter
  - FILTERMETER Digital water capacity meter
- Available to buy online [www.caple.co.uk](http://www.caple.co.uk)

### DIMENSIONS

- 3 x 35mm worktop cut out required

# Puriti Taps

## FANCY PURIFIED, FILTERED COLD WATER ON TAP?

Choose a Caple Puriti tap to deliver regular hot and cold water with the added benefit of fresh filtered water. It is either dispensed using a third lever or sometimes fully integrated into the standard design.

An ingenious filtration system is hidden from sight in the kitchen unit, and by turning the filtration tap, your normal cold water supply is diverted via the Caple filter to the tap and in to your glass. It is also great for areas with particularly hard water. By using the filtered water in kettles and cooking you greatly reduce the damaging impact of lime-scale build up in appliances and reduce the effect of water impurities during food preparation, whilst also improving tea and coffee.

### HOW IT WORKS

As the filter tap is turned the normal cold water supply is redirected through a series of filtration processes including activated carbon. This removes almost all chlorine improving the taste, and other impurities such as particulates, bacteria, rust, heavy metals and pesticides, while also acting as a scale inhibitor. It also helps maintain the pH balance of the water, which is much healthier than consuming overly acidic or alkaline normal tap water.

### WHY IT'S GOOD

Caple Puriti filter can last up to 4 x longer compared to other filtration systems on the market. Puriti filters up to 6000 litres compared to only 300 - 1500 litres.

The Caple Puriti filter is discreetly installed under the sink. It will be easily accessible for changing which will need to be done about every six months. This is a very straight-forward process that does not require any tools.

Replacement filters and fixing kits are available to buy online at [www.caple.co.uk](http://www.caple.co.uk)

# Pull-Out + Spray Taps

With technology taken from professional kitchens, spray taps work on the same principle as a single lever tap design with the standard hot and cold functions. However on some models the nozzle pulls out on an extended, flexible metal hose. By pressing the button on the side of the spray head the nozzle produces a high pressured spray or jet of water.

The powerful spray makes it so much easier to wash and rinse items. Used in most professional kitchens worldwide, it's a must-have for accomplished chefs.

The secret is in the nozzle. As well as a powerful spray, some models have a long flexible hose that can be pulled out allowing you to move the tap freely around the sink.

## ASPEN PULL-OUT

### ASPS2/CH - Polished Chrome

#### GENERAL FEATURES

- Pull-out design
- Minimum 0.5 bar pressure required

# Single Control Taps

**ENDLESS CHOICE**

With Caple's single control taps you can be sure that the engineering that goes in to one of our taps is second to none. Smooth gliding operation, robust seals and a solid finish. So now all you have to do is decide which style and finish is best for you. With various finishes in so many designs from the classic to the contemporary, it maybe harder task than you think.

**SINGLE LEVER SIMPLICITY**

Everything controlled by a single lever – move it left and right for temperature, or up and down for pressure.

**PROGRESSIVE VALVE**

Control your tap with a simple rotating motion. The water flow starts cold and gradually gets warmer. The more you turn the control, the hotter the temperature whilst the water pressure gradually increases.

Stainless STEEL

**KARNS**

**KAR/BS** - Black Steel   **KAR/BK** - Chromite Black   **KAR/CO** - Copper   **KAR/GD** - Gold   **KAR/GM** - Gunmetal   **KAR/SS** - Stainless Steel

**GENERAL FEATURES**

- Solid stainless steel with metallic PVD coating
- Single lever design
- Minimum 0.5 bar pressure required
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**DUMAS**

**DUM/CH** - Polished Chrome

**GENERAL FEATURES**

- Single lever design
- Minimum 0.3 bar pressure required
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**DANVERS**

**DAN/CH** - Polished Chrome

**GENERAL FEATURES**

- Single lever design
- Minimum 0.1 bar pressure required
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**FRESNO**

**FRS/CH** - Polished Chrome

**GENERAL FEATURES**

- Single lever design
- Minimum 0.3 bar pressure required
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**RIDLEY**

Stainless STEEL

RID/BS - Black Steel    RID/CO - Copper    RID/GD - Gold    RID/GM - Gunmetal    RID/SS - Stainless Steel

**GENERAL FEATURES**

- Solid stainless steel with metallic PVD coating
- Single lever design
- Minimum 0.5 bar pressure required
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**HAYDEN**

HAY/SS - Solid Stainless Steel

Stainless STEEL

**GENERAL FEATURES**

- Single lever design
- Seamless body with 360° pivot at the base
- Minimum 0.5 bar pressure required
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**LANDIS**

LAN/CH - Polished Chrome

**GENERAL FEATURES**

- Single lever design
- Minimum 0.3 bar pressure required
- Adjustable nozzle
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**SWANSON**

SWA/CH - Polished Chrome

**GENERAL FEATURES**

- Single lever design
- Minimum 0.3 bar pressure required
- Single lever ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**SINGLE LEVER**

**SLD2/CH** - Polished Chrome

**GENERAL FEATURES**

- Single lever design
- Minimum 0.3 bar pressure required
- Single lever ceramic valve
- Single flow
- WRAS approved

The SLD2/CH has been designed to conform to water efficiency requirements, it has a flow rate of less than 4 litres per minute at 3 bar.

**DIMENSIONS**

- Worktop cut out 35mm required

**SL6/CH** - Polished Chrome

**GENERAL FEATURES**

- Single lever design
- Minimum 0.3 bar pressure required
- Single lever ceramic valve
- Single flow
- WRAS approved

**DIMENSIONS**

- Worktop cut out 35mm required

# Dual Control

## CLASSIC, COOL AND CONTEMPORARY

Classic does not mean old fashioned. For many of us dual control taps are a matter of personal preference. Hot on the left, cold on the right. It's as simple as that.

But even with the classic dual control, designs vary. There is the monobloc design or bridge design. Choose ceramic handles to match your ceramic sink. Sleek solid stainless steel – a premium material and very contemporary. Chrome - bright and reflective. Brushed nickel – subtle and blemish free. Pewter. Distinctive with a traditional twist. All meticulously designed and beautifully engineered.

Whichever you choose you can be sure that they all have one thing in common Caple's uncompromising quality.

## PROGRESSIVE VALVE

Control your tap with a simple rotating motion. The water flow starts cold and gradually gets warmer. The more you turn the control, the hotter the temperature whilst the water pressure gradually increases.

AVEL

Stainless STEEL

AVE2/BS - Black Steel    AVE2/BK - Chromite Black    AVE2/CO - Copper    AVE2/GM - Gunmetal    AVE2/SS - Stainless Steel

GENERAL FEATURES

- Solid stainless steel with metallic PVD coating
- Monobloc design
- Minimum 0.5 bar pressure required
- Quarter turn ceramic valve
- Dual flow

DIMENSIONS

- Worktop cut out 35mm required

AVEL

WRAS APPROVED PRODUCT

AVE4/BC - Blackened Copper    AVE4/BN - Brushed Nickel    AVE4/CH - Chrome

GENERAL FEATURES

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valve
- Single flow
- WRAS approved

DIMENSIONS

- Worktop cut out 35mm required

**ANTIQUE**

ANT4/BN - Brushed Nickel

ANT4/CH - Polished Chrome

**GENERAL FEATURES**

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valve
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**CRUCIFORM**

CRU/CH - Polished Chrome

**GENERAL FEATURES**

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Dual flow

**DIMENSIONS**

- Worktop cut out 35mm required

**COLTON**

COL/CH - Polished Chrome

**GENERAL FEATURES**

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Single flow
- 180° swivel spout

**DIMENSIONS**

- Worktop cut out 35mm required

## HADLEY

HAD/BN - Brushed Nickel

HAD/CH - Polished Chrome

### GENERAL FEATURES

- Monobloc design
- Minimum 0.5 bar pressure required
- Quarter turn ceramic valve
- Single flow

### DIMENSIONS

- Worktop cut out 35mm required

## JOYA

Stainless  
STEEL

JOY/BS - Black Steel

JOY/CO - Copper

JOY/GD - Gold

JOY/SS - Stainless Steel

### GENERAL FEATURES

- Solid stainless steel with metallic PVD coating
- 3 Tap hole installation
- Quarter turn ceramic valves
- Single flow
- Minimum 0.5 bar pressure required

### DIMENSIONS

- 3 x 35mm worktop cut out required

### KNIGHTSBRIDGE

**K/BRI4/CH** - Polished Chrome

#### GENERAL FEATURES

- Bridge design
- Minimum 0.2 bar pressure required
- Quarter turn ceramic valves
- Dual flow

NOTE: Image above shows tap levers in 'on' position

#### DIMENSIONS

- Worktop cut out 25mm required

### KONTRO

**KON3/CH** - Polished Chrome

#### GENERAL FEATURES

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valve
- Single flow

#### DIMENSIONS

- Worktop cut out 35mm required

### LEVAL

**LEV3/BN** - Brushed Nickel

**LEV3/CH** - Polished Chrome

#### GENERAL FEATURES

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Single flow

#### DIMENSIONS

- Worktop cut out 35mm required

**PUTNEY BRIDGE**

Stainless STEEL

PUT/BRI/AB - Antique Brass    PUT/BRI/BC - Blackened Copper    PUT/BRI/PS - Polished Stainless Steel    PUT/BRI/SS - Solid Stainless Steel

**GENERAL FEATURES**

- Bridge design
- Solid stainless steel with metallic PVD coating
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Single flow

NOTE: Image left shows tap levers in 'on' position

**DIMENSIONS**

- Worktop cut out 26mm required

**LAMAR**

LAM/BC - Blackened Copper    LAM/CH - Polished Chrome

WRAS APPROVED PRODUCT

**GENERAL FEATURES**

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Single flow
- WRAS approved

**DIMENSIONS**

- Worktop cut out 35mm required

LAM3/SS - Solid Stainless Steel

Stainless STEEL

**GENERAL FEATURES**

- Monobloc design
- Minimum 0.5 bar pressure required
- Quarter turn ceramic valves
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

## SHAFTSBURY

S/CRU5/PTR - Pewter

S/CRU5/CH - Polished Chrome

### GENERAL FEATURES

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Single flow

### DIMENSIONS

- Worktop cut out 35mm required

## WASHINGTON

WAS4/BN - Brushed Nickel

WAS4/CH - Polished Chrome

### GENERAL FEATURES

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Single flow
- WRAS approved

### DIMENSIONS

- Worktop cut out 35mm required

**ROBO**

**ROB3/SS** - Solid Stainless Steel

**GENERAL FEATURES**

- Monobloc design
- Minimum 0.5 bar pressure required
- Quarter turn ceramic valves
- Single flow

**DIMENSIONS**

- Worktop cut out 35mm required

**ZUBEN QUAD**

**ZUBQ4/CH** - Polished Chrome

**GENERAL FEATURES**

- Monobloc design
- Minimum 0.3 bar pressure required
- Quarter turn ceramic valves
- Single flow
- WRAS approved

The ZUBQ4/CH has been designed to you conform to Water efficiency requirements, it has a flow rate of less than 4 litres per minute at 3 bar

**DIMENSIONS**

- Worktop cut out 35mm required

# Waste Disposal Units

A waste disposer hidden away under the sink can help you recycle your food scraps and leftovers like potato peelings, chicken bones, egg shells and tea bags. It's clean, it's green and it leaves you less to clutter up your bin.

Simply turn on the cold tap and the disposer, then empty everything into the sink. The disposer grinds the food waste into fine particles and flushes the waste away down the drain.

Since more than 25% of household refuse is food, that means less rubbish for the dustmen to take away to clog up our landfill sites, and a reduction in the amount of greenhouse gases emitted.

Disposer waste can be recycled into a soil conditioner once it reaches the water treatment plant so you will be making a positive contribution to your environment.

## BIO SHIELD ODOUR PROTECTION

With Bio Shield odour protection, the WDU125 is treated with Antimicrobial agent to provide ultimate protection against the growth of bacteria and subsequent odours.

Features a 1.25hp motor and grinding system with a superior torque grind speed for along system life and maximum power.

All models carry a lifetime corrosion proof guarantee, this warranty covers against failure due to corrosion.

## EASY INSTALLATION

The lightweight and compact design of the WDU125 features easy mount installation, a system that enables fast easy installation.

## WASTE DISPOSAL UNITS

### WDU050

#### GENERAL FEATURES

- 2 YEAR GUARANTEE
- 0.5hp waste disposal unit
- Continuous feed
- High speed magnet motor
- Overload protection
- Corrosion resistant 3 stage grinding system
- Easy mount installation
- Sound insulation
- Suitable for air switch WDUAIR
- Removable splash guard
- Fits standard 90mm waste outlets

#### DIMENSIONS

- Width 175mm
- Depth 175mm
- Height 372mm

#### ACCESSORY OPTIONS

Basket strainer waste decorative cover  
CWC2

### WDU125

#### GENERAL FEATURES

- 3 YEAR GUARANTEE
- 1.25hp waste disposal unit
- Continuous feed
- High speed permanent magnet motor
- Overload protection
- Corrosion resistant 3 stage grinding system
- Bio shield odour protection
- Easy mount installation
- Sound insulation
- Air switch included
- Fits standard 90mm waste outlets
- Fits sinks up to a thickness of 23mm (an extended flange is available for sinks up to 45mm thick) EX/WDU125

#### DIMENSIONS

- Width 220mm
- Depth 220mm
- Height 439mm

#### ACCESSORY OPTIONS

Basket strainer waste decorative cover  
CWC2

Extended flange  
EX/WDU125

# CAPLE CARE

For peace of mind, we provide the following guarantees on our sinks, taps and waste disposers.

## SINKS

Free lifetime guarantee on all Caple sinks

## TAPS

- 5 year guarantee on coatings and finishes
- 5 year guarantee on moving parts and valves
- 5 year guarantee on stainless steel finish

## VAPOS BOILER

2 year guarantee

## WASTE DISPOSERS

- 2 year guarantee on WDU050 and WDU075
- 3 year guarantee on WDU100 and WDU125

## AFTER-SALES CUSTOMER SUPPORT

Year 1-5 Caple – telephone 0117 938 7420

Calls are charged at the local rate– please check with your provider for actual charges. Subject to terms and conditions
