Why do so many customers prefer ECF?

Rather than one single reason, it's a combination of things.

The vast range of products; many designed and manufactured using the latest techniques in our own state-of-the-art facilities, sets us apart. Not to mention the flexibility to provide tailored kitchen, bedroom and bathroom solutions that provide for the needs of even the most discerning customer.

We will always strive to offer the best value, in every possible way. With over 35 years of experience, we'll ensure every customer has the flexibility, choice and support they need to achieve their lifestyle preference.

We have an open invitation for our customers to visit our Marketing Suite where furniture and accessory choices can be made and undertake an escorted tour of our manufacturing, warehouse and design facilities.

That's what makes us different. And what makes us ECF!

OUR SUPPLIER PARTNERS

OUR BRANDS

HANDLES

There's no better way to give a kitchen, bedroom or bathroom the personal touch. And with over 900 different styles of door handle all available from stock, there's no better choice than ECF. The following pages show just a selection of our handles; you'll find hundreds more online at www.ecf.co, where you can use filters to find the right size, finish and style to make yours the perfect finishing touch.

BERN, 'D' Handle

greyhouse bathrooms

The latest stylish contemporary design, a soothing sanctuary and practically chic - greyhouse provides the perfect bathroom experience.

With over 35 years in the business we understand exactly what customers are looking for in a bathroom. We continually invest in providing the latest design innovations, a choice of natural earthy tones, warm luxurious finishes and quality craftsmanship that you, like us, can be proud of.

That's what makes it a greyhouse bathroom.

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of our stylish greyhouse bathrooms brochure.

STORAGE SOLUTIONS

The clever, ingenious use of space – from simple hanging rails to carousel systems for corner cupboards – is vital in any kitchen or bedroom. And it's an ECF speciality. We have a simply unbelievable range of options available...and better still, our Innostor and Innostor Plus range has been designed by us, so you can be sure every product is of the highest quality.

Designed by ECF to meet the highest standards in quality and functionality, the Innostor Plus storage solutions range incorporates heavy duty runner mechanisms with smooth soft close operation.

With a full complement of products to cover all applications, from small baskets through to full height larder systems, the second generation features a sleeker chrome rail profile and improved soft close functionality, which gives the range a superior look and feel. Along with new templates and improvements to the mechanisms, which make many of the products quicker and simpler to fit, Innostor Plus has it covered.

Key features within the Innostor Plus range:

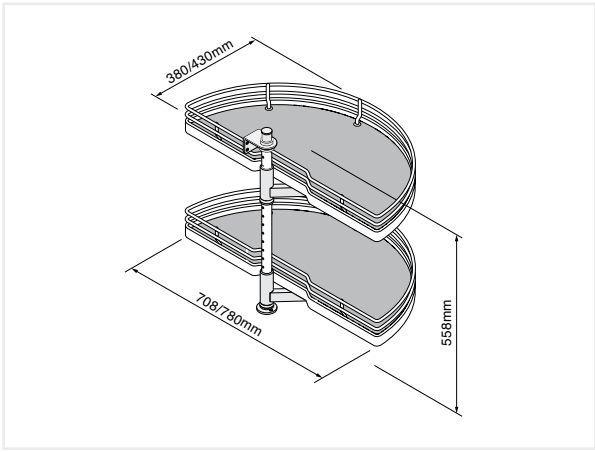

- Solid bases, shelves or baskets
- Soft closing runners
- Chrome finished gallery rails
- Adjustable tray locations
- Full extension opening
- Concealed runners
- Self centering action on rotating carousels
- Templates and video guides provided for easy installation

1/2 Carousel Plus

- Universal
- Adjustable tray location
- Image shown, fitted left hand

NEW

- Maximum height from base of foot to top of wall bracket is 2280mm
- Shelves not included; they are available in made to measure widths for purchase separately
- All rails can be cut down to desired size

HOXTON

— Painted Doors —

Colour adds so much to any kitchen. Style, personality, warmth...with colour, you can create a focal point, lighten up dark corners or be mix-and-match creative. You can make it warm and welcoming, traditional and timeless.

And whether you go for muted, earthy shades or cool blue and grey tones, the exquisite craftsmanship and enduring design of our HOXTON painted doors is a natural choice.

Arlington

The Shaker-inspired Arlington offers the ideal mix of traditional style and contemporary minimalism, made from solid ash it offers a simple look enhanced by a beautiful grain, available in eleven different shades.

Aske

For a real 'statement kitchen', the crisp clean lines of our superb Aske door style takes some beating. The seamless edges and discreet 'J' handle result in a smooth, uncluttered look – bringing a modern touch to the HOXTON range and available in a total of eleven colours and three different lacquer finishes.

Highbury

The beautifully proportioned raised-panel design lends itself to a traditional or contemporary look – simply add individual touches with your choice of colour, handles and accessories. Very chic, very you.

Curve

Our Curve door style adds a touch of glamour to any kitchen, available in three tasteful colours given a deep, rich lustre through its high gloss lacquer finish. It creates a distinctly luxurious look, the angular feel set off to perfection by the J-Pull handles.

Stonebridge

The true beauty of solid oak really shines through on the Stonebridge, with individuality in each grain pattern. Subtle details add a certain flair to its pure lines – no wonder it's an enduringly popular choice.

Vallance

Cool and collected is the theme with Vallance, its six matt shades complementing its geometric shapes and smooth surfaces perfectly. And how better to complement its strongly defined lines than with the subtlety of the mid century inspired handle.

Boundary

Adding a fresh twist to the classic Shaker look, the Boundary door is available in no fewer than six fashionable shades in an elegant matt finish. Its beautiful proportions and practical style are the perfect choice for any kitchen.

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of our HOXTON Painted Doors brochure.

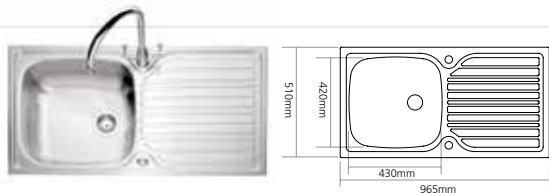

SINKS

Contemporary stainless steel, traditional ceramic, practical granite...ECF has almost as many sink options as there are kitchens available. You'll find a huge choice of inset, under-mounted or farmhouse-style designs, perfect for every layout and look – and as if that weren't enough, we also have access to Caple's full portfolio.

GEOTECH GRANITE SINKS

VEIS 100

Inset Geotech granite sink with drainer
VEI100AN

Exceptionally good-looking and extremely hard-wearing, granite is an obvious choice to add a touch of style to your kitchen.

Our granite range consists of four different families; Sotera, Canis, Veis and Leesti. Each family is available in four colourways: Anthracite, Chalk White, Pebble Grey and Desert Sand, so whatever your preference, there is a sink to suit you. Every sink is made from specially developed Geotech material with all the benefits of granite - hard-wearing, versatile and stylish.

Why choose Geotech?

This hi-tech material is created from a unique blend of natural quartz and top grade acrylic. There are many reasons why it's such a great choice.

Naturally good looking

These sinks offer the beauty of natural stone, yet can be moulded into an unlimited number of inspiring designs.

Kind on the environment

Geotech is made up of around 80% natural materials and manufactured using low energy consumption.

Keeps its colour

Completely colourfast, the metallic and matt colour finishes will both stay fresh and vibrant.

Highly durable

Produced to be extremely hard-wearing, it takes the knocks and scrapes of daily life in its stride.

Cut-resistant

Both cut and scratch resistant, Geotech will retain its unblemished surface through thick and thin.

Heat and burn resistant

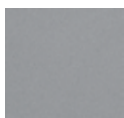

Hot pans? No problem - resistant to heat, cracking and discolouring, blistering and warping.

Stain resistant

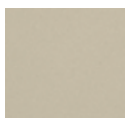

As long as your sink is cleaned regularly, it won't discolour or stain.

Easy to clean

All you need to keep Geotech sparkling is warm water and washing-up liquid.

AXLE INSET AND UNDERMOUNTED SINKS

Introducing Caple's new range of inset and undermounted stainless steel sinks. With a choice of 3 sizes, each sink includes a steel colander and a wooden chopping board, both of which are specially designed to fit the bowl perfectly. Each accessory sits side-by-side on a small ledge making it quick and easy to chop, drain and rinse freely. Axle sinks are ideal for apartment living, freeing up valuable worktop areas when space-saving is key.

HOXTON

— *Made to Measure Doors* —

From traditional to ultra-modern, and with each one made to measure and exquisitely crafted, HOXTON made to measure Painted Doors are undoubtedly the perfect fit. Choosing from a range of unique colours and styles it's amazing how much personality you can bring to your home.

Whether you're looking for serenity or complete escapism, choose from a range of modern or traditional stylish finishes and add calming colours to suit you.

The space around us has a huge impact on our mood so why not take time out to create your dream kitchen or bedroom with HOXTON made to measure painted doors?

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of our HOXTON Painted Doors Made to Measure Kitchens brochure.

TAPS

For a splash of style, nothing sets off a kitchen more than a tap that's as beautiful to look at as it is efficient. ECF has a stunning array in every material – chrome, brushed steel or black granite, traditional or cubist style – plus we have access to Caple's full portfolio for even more options. All on tap, of course.

VAPOS 3-IN-1 STEAMING WATER TAP

Vapos taps supply fresh cold water, regular hot water and filtered 98°C steaming water, the perfect temperature for preparing tea, blanching vegetables and assisting the cooking of pasta and rice.

Water conditioning technology provides exceptional accuracy for scale and acidity control for increased boiler protection, this also means outstanding food and beverage quality. Quick and simple installation allows the tap, filter and boiler to be easily retrofitted. Finished in stunning stainless steel, Vapos taps exude style and practicality.

Outstanding Water Filtration

Offering a new standard of water filtration technology, providing extraordinary accuracy for scale and PH control. This water filtration and conditioning technology effectively combines hardness reduction, mineral stabilisation and corrosion inhibition by maintaining a controlled low carbonic acid level in the water.

It delivers the best available water quality for hot drinks by removing lime scale build up in the boiler (provided filters are installed and maintained/exchange in line with manufacturer recommendations).

It includes DuoBlend® valve technology for the most accurate bypass ratio and a 5µm Carbon block membrane for particle protection, reducing tastes and odours such as chlorine and chlorine by-products, THM's, PAH's and pesticides such as Simazine, Atrazine, Lindane and Dieldrin. Eachy filter lasts approximately six months and is easily changed without tools.

Large Boiler

A large boiler capacity means 2.4 litres of steaming water is ready for use whenever you need it. With a temperature range of 50°C - 98°C it uses less electricity than a 40W light bulb.

PURITI FILTER TAPS

Discreet and easy

The Caple Puriti filter is discreetly installed under the sink. It will be easily accessible for changing which will need to be done about every six months. This is a very straight-forward process that does not require any tools.

Compared to other filtration systems on the market, the Caple Puriti filter can last 4 x longer. Filtering up to 6,000 litres compared to only 300 – 1,500 litres. So, no more filter jugs cluttering up your fridge, or plastic bottles clogging up the environment just fresh, pure healthy water.

Just for filtered water

We've introduced another Puriti tap to the range that is purely for filtered water. The Caple Salus Puriti tap and Layton Puriti are used in addition to your normal tap or taps.

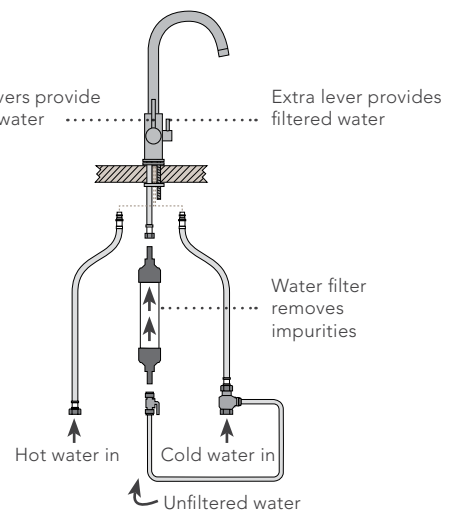

They can sit on the worktop, near your sink and other tap or taps and produce great tasting filtered water. Both taps are quite small compared to a lot of taps so that it doesn't overwhelm the sink area of your kitchen. They can of course be put in any room that has a water supply so although traditionally filter taps are used in the kitchen it can also be fitted in a utility room or laundry room for example.

Filter technology

Our innovative Puriti taps are cleverly designed to deliver hot, cold and filtered water from one single fitting. As with conventional taps, hot and cold water is delivered using the standard controls.

An additional lever on our Puriti taps allows you to select fresh, filtered water. When the lever is turned, water is diverted through a filter cartridge which uses activated carbon media to remove hidden impurities such as chlorine and rust. The result is clean, great-tasting water that can be enjoyed at any time.

APPLIANCES

We proudly stand alongside Caple, a leading brand in the domestic appliance market to bring you an array of kitchen appliances that not only have striking design attributes but perfectly balance reliability with the latest technology and performance with efficiency.

Perfectly aligned for price through ECF you can be assured your Caple appliance will exceed your expectations. If core functionality in the appliance is required, we have it - if a little flair for the latest design innovations is needed we have it too, thanks to our Caple partnership.

'Every appliance combines intuitive technology, functional engineering and contemporary design through and through.' *Caple 2015*

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of Caple's Appliance Collection.

HINGE SYSTEMS

Ever-more intricate kitchen design has brought an ever-increasing range of hinge options. And you'll find them all at ECF, with one of the widest choices available and a fitting to suit virtually any application.

HINGE SYSTEMS FOR EVERY APPLICATION

Blum's comprehensive hinge programme has the right solution for a great many applications.

All hinge systems excel in terms of reliable function, adjustment, assembly ease and beautiful design.

There are many reasons to choose hinges from Blum: High quality, durability, easy assembly, comprehensive programme, variety of special solutions and attractive design.

- BLUMOTION for silent and effortless closing of furniture doors
- For CLIP top, BLUMOTION is integrated into the hinge boss
- Or as a BLUMOTION retrofit part for optional use with CLIP top hinges
- Easy assembly and removal thanks to the proven CLIP mechanism
- An extensive hinge programme that offers the right solution for any application

CLIP top BLUMOTION

Innovative technology within the smallest space. CLIP top BLUMOTION has soft-close BLUMOTION integrated into the hinge boss.

- With integrated BLUMOTION
- With deactivation switch
- Infinitely variable 3-dimensional setting options
- Compatible with all CLIP mounting plates
- Tool-free assembly and removal
- Special hinges available, e.g. for aluminium frames, profile and angled doors

CLIP top

Simply clip it on and that's it. CLIP top offers standard and special hinges for a variety of applications. Can be combined with BLUMOTION or TIP-ON.

- Infinitely variable 3-dimensional setting options
- Compatible with all CLIP mounting plates
- Tool-free assembly and removal
- Special hinges available, e.g. for aluminium frames, profile and angled doors

MODUL

Classic design and reliable function - MODUL's combined slide-on and screw-fix feature has proven itself over the years. The hinge is very popular with furniture makers.

- Simple and easy slide-on assembly
- Simple 3-way adjustment for perfect gap alignment

SUPERIOR CABINETS

PROUDLY MADE IN BRITAIN

KITCHEN - BEDROOM - BATHROOM

Our SUPERIOR CABINETS are well known for their quality and durability. Manufactured in the UK at our state of the art facilities we produce an extensive range of kitchen, bedroom and bathroom cabinets.

Utilising predominantly Egger board throughout, our unassembled cabinets offer a comprehensive range of sizes and configuration options.

Not only does the quality of our SUPERIOR CABINETS make them extremely easy to assemble, their strength and durability has allowed our innovative manufacturing and design team to develop both the GADDESBY rigid fitted furniture and greyhouse bathrooms rigid modular design concepts from the core SUPERIOR CABINET.

Together with Blum's hinge, lift and runner system technology our SUPERIOR CABINETS are amongst the best cabinets available.

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of our SUPERIOR CABINETS brochure.

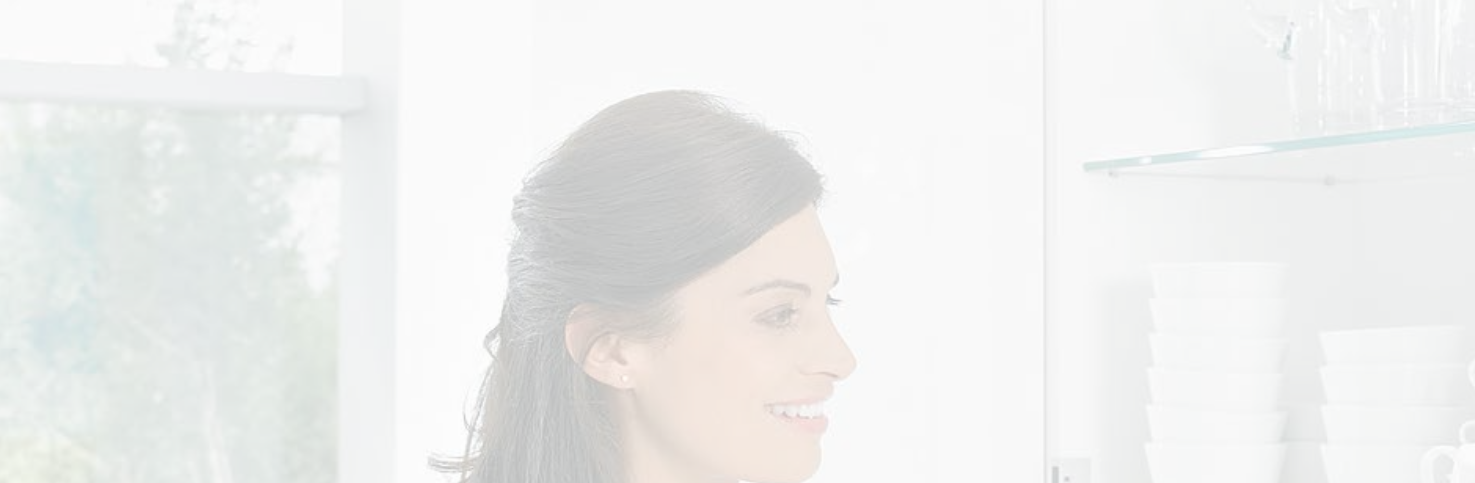

LIFT SYSTEMS

They're the rising stars in the kitchen: practical and powerful, compact and flexible, ECF's range of innovative lift systems is the perfect choice for today's extremely popular bi-fold and flap doors. And they're all available from stock.

LIFT SYSTEMS

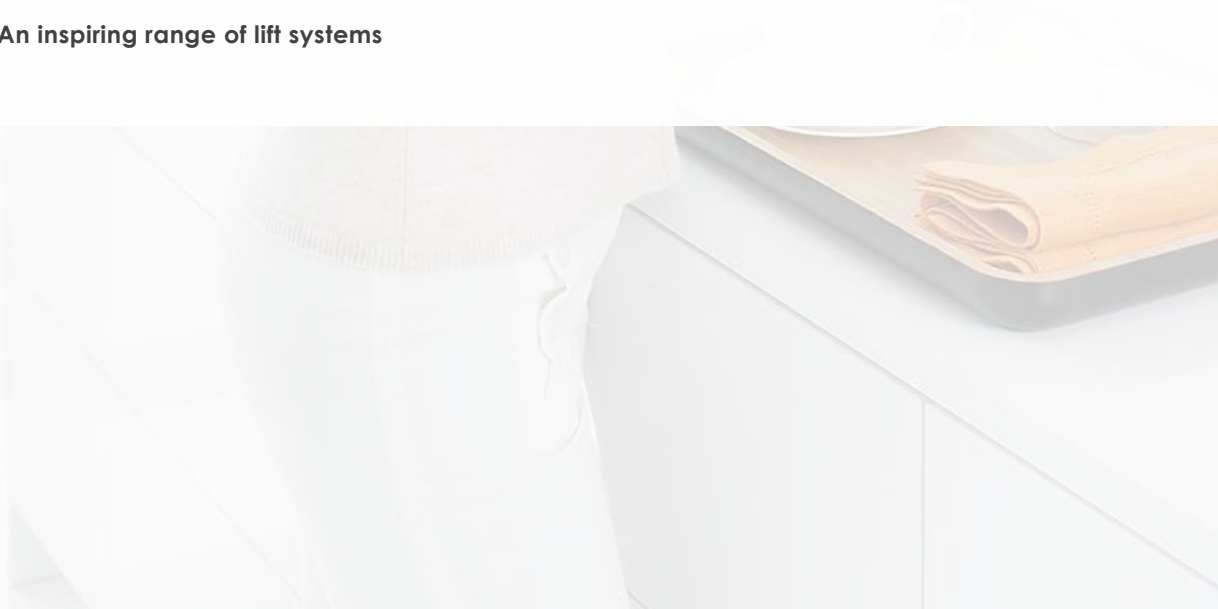

For enhanced freedom of movement

AVENTOS lift systems bring enhanced freedom of movement to every wall cabinet. No matter whether in kitchens or living areas, with large or small fronts - all AVENTOS wall cabinets open with utmost ease and close again softly and effortlessly with integrated BLUMOTION. Freedom of movement is guaranteed throughout, and fronts are always out of the user's way.

AVENTOS fittings for lift systems provide ease of use in the wall cabinet area. Even wide lift systems open easily, remain in any desired position and – thanks to BLUMOTION – close silently and effortlessly.

- Silent and effortless closing thanks to the integrated BLUMOTION
- Quick and easy assembly and removal due to CLIP technology
- Easy 3 - dimensional front adjustment
- Perfectly balanced – fronts remain in any desired position
- Optimised ergonomic handle position
- No protruding parts
- With SERVO-DRIVE, the electrical motion support system for wall cabinets
- With TIP-ON, the mechanical opening support system for AVENTOS HK-S

AVENTOS An inspiring range of lift systems

AVENTOS HF BI-FOLD LIFT SYSTEM

- Ideal for high, bi-fold fronts in wall cabinets
- Low upward space requirement
- Can be used with fronts of different heights
- From stock

AVENTOS HS UP AND OVER LIFT SYSTEM

- Ideal for large, one-part fronts in wall cabinets
- The lift system pivots over the cabinet
- Can be combined with cornice or crown moulding
- Available to order
- Further details available upon request

AVENTOS HL LIFT UP

- Ideal for large, one-part fronts in larders and wall cabinets
- Suitable for use with fronts above it
- Conceals electronic devices, for example, behind a continuous front
- Available to order
- Further details available upon request

AVENTOS HK STAY LIFT

- Ideal for heavy fronts in wall cabinets
- Low upward space requirement
- Complete fitting
- From stock

SERVO-DRIVE, the electrical motion support system for bi-fold lift systems, up and over lift systems, lift ups, and stay lifts

AVENTOS HK-S SMALL STAY LIFT

- Ideal for small fronts in top wall cabinets
- Lift mechanism fits harmoniously into small cabinets, e.g. above the refrigerator or larder
- Complete fitting
- From stock

TIP-ON, our mechanical opening support system, is now also available for lift systems AVENTOS HK and AVENTOS HK-S

AVENTOS HK-XS SMALL STAY LIFT

- Ideal for small, top wall cabinets
- Also suitable for cabinets with low internal depths, e.g. above the extractor
- Small fitting, can be used on one or both sides
- From stock

Advantages that will inspire both you and your customers.

Excellent durability

The core element of the mechanism is a robust spring package

No Protruding Parts

Removable telescopic arm – an advantage for furniture manufacturing and kitchen installation

Includes a finger safety feature

The CLIP top centre hinge with innovative technology ensures finger safety

Similar shelves possible

Depending on the height of the cabinet, two identical shelves can be used

AVENTOS HF BI-FOLD LIFT SYSTEM

A Bi-fold lift system has never been so smooth.

The AVENTOS HF has a two-part front that folds together in the centre when opening. The Bi-fold lift system is ideal for higher wall cabinets with large fronts because the handle is easy to reach and in any position AVENTOS HF can also be used with fronts of different heights.

- Silent and effortless closing, thanks to BLUMOTION
- Easy to open
- Stops at any opening position
- Provides excellent access to the cabinet interior
- Small programme, huge application variety
- Easy assembly and adjustment
- Stability, even with wide fronts
- Excellent durability
- Free positioning of handles
- No protruding parts

Optional: SERVO-DRIVE for AVENTOS, the electrical motion support system for wall cabinets

Power Factor: Carcass Height (mm) x door weight including handles (kg)

High quality of motion

The variable stop allows the lift system to remain in any desired position and always within easy reach

Numerous possibilities

Whether thick wooden fronts with wide or narrow aluminium frames, the fixing positions always remain the same. This allows different materials and different thickness to be easily integrated

Proven Blum quality

The lift mechanism with a robust spring package is the core element of the compact fitting.

The AVENTOS HK-XS proves itself in this way with high stability and durability. High quality is ensured for the lifetime of the furniture

AVENTOS HK-XS STAY LIFT

A wide range of applications in every living area.

The compact design of the AVENTOS HK-XS means that the cabinets with small internal depths can be equipped easily. The symmetrical lift mechanism can be used on one or both sides. For the widest range of applications and a high level of design freedom.

- Well suited for top wall cabinets
- Cabinet height from 240mm to 600mm
- Interior depth minimum 125mm
- Closes silently and effortlessly in conjunction with CLIP top BLUMOTION hinges
- Well-balanced quality of motion due to light operating forces, a variable stop and BLUMOTION
- Simple, virtually tool-free assembly and easy adjustment
- Symmetrical lift mechanism – can be used on one or both sides
- High quality design

Sleek contemporary styling, endless stunning design configurations, effortless state of the art runner technology and soft closing are offered standard.

The VOLANTE sliding door system not only provides a tailored, made to measure service but a commitment from us that the product is made to the highest standards, we don't compromise on quality why should you. To prove it, we deliver our doors with a 10 year ECF manufacturers warranty.

Door configurations are fully customisable should you wish to use non standard panel configurations, both vertical and horizontal, Visit ecf.co and utilise the free VOLANTE configuration tool to create door designs with all material and colour options available including mirrored and suede finishes.

Simple principles, matched with the latest technologies and designs.

That's what makes it VOLANTE.

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of our VOLANTE brochure.

The background image is a photograph of a modern interior space. It features a large window with a black metal frame, flanked by light-colored brick walls. The window looks out onto a cityscape. In the foreground, there is a white windowsill with a few books on it. To the left, a portion of a brown leather sofa is visible. In the bottom left corner, a round, metallic coffee table is partially shown. The overall aesthetic is clean and contemporary.

PULL-OUT DRAWER SYSTEMS

Smooth-running, beautifully organised drawers are a real sign of quality in any kitchen or bedroom. With endless possibilities in terms of size, shape and internal options – stretching from TANDEMBOX antaro pre-assembled drawers to the sophisticated SERVO-DRIVE power-assisted opening system – it's an open and shut case for choosing ECF.

PULL-OUT DRAWER SYSTEMS OVERVIEW

You can now fulfil all different customer wishes with BLUM pull-out systems.

This is because the LEGRABOX and TANDEMBOX lines offer many different design options. Each line offers a comprehensive range of applications: from standard solutions to special applications.

- BLUMOTION for silent and effortless closing
- SERVO-DRIVE for more comfort of motion. A light touch for opening. BLUMOTION provides silent and effortless closing action
- TIP-ON for handleless options
- High stability
- Quality for the lifetime of the furniture

LEGRABOX pure and free

Minimalistic. Linear. Sleek. Slim.

The elegant drawer box system for every living area.

TANDEMBOX antaro

The Minimalistic line
Rectangular with a clear design
all the way down the line.

TANDEMBOX antaro is
characterised by a clear style –
whether it's with a gallery or as a
closed box with a design element.

METABOX

Simple. Excellent. Proven.

The single walled BOX system
made from steel offers a number of
application options.

LEGRABOX pure

EXPERIENCE ELEGANCE

Straight lines, sleek design with clearly defined shapes and especially high quality of motion – that's LEGRABOX, the new elegant box system from Blum.

LEGRABOX is as wide-ranging as the concept of 'home' itself. It can be used for any application in any part of the home. To go with this, there is AMBIA-LINE, an inner dividing system that has been specifically tailored to match the design. For harmonious overall look in all living spaces.

Straight on the inside and outside

The side panels, which are impressively slim at 12.8mm, blend in beautifully with all items of furniture. The individual components are perfectly coordinated with one another and form beautiful transitions.

Runner Quality

The LEGRABOX cabinet profile is a new runner system with outstanding running characteristics. Minimal opening force and synchronised smooth running action add a new feeling of smoothness and quality of motion.

All Round adjustment

Height and side adjustment; The height (+/- 2mm) and sides (+/- 1.5mm) can be adjusted with precision using Torx screws. Tilt adjustment is very easy to perform thanks to its position at the rear on the inside of the drawer side.

Stability for high fronts

High fronts are becoming more and more significant as a design element. LEGRABOX supports this design trend with a new type of front fixing bracket that guarantees maximum stability when opening and closing.

TANDEMBOX antaro

THE MINIMALIST LINE - RECTANGULAR WITH A CLEAR DESIGN

TANDEMBOX antaro has a clear, rectangular style – either with a gallery or as a closed box with a design element.

All the components are colour-coordinated, thus accentuating the minimalistic product design. You also have the option of using different opening support systems. SERVO-DRIVE, the electrical opening support system in combination with BLUMOTION, or TIP-ON the mechanical opening support system.

Characteristic of the minimalist product design: the rectangular gallery.

All nylon components are matched with the relevant drawer side colour.

Design elements don't just provide closed containers but also give your kitchen character. Choose from Blum design elements made from glass or metal. Other materials are also possible such as wood.

The coordinated colour and material programme includes three steel variants: grey (white aluminium, RAL 9006) available from stock or silk white, and terra black as well as stainless steel. (Minimum order quantities and lead time may apply).

METABOX

SIMPLE. EXCELLENT. PROVEN

A high quality system with a few component parts.

METABOX drawers are made up of only a few components. Using the proven BOX system you can realise so many different applications. Stable materials and careful assembly ensure the best stability values – up to a max. Dynamic load bearing of 30kg.

The tried and tested BLUMOTION function is also available as an option for the METABOX single extension. Independent of the force used and the weight of the storage items. Extremely practical and economical: in all standard applications one unit is all you need.

METABOX BLUMOTION ensures silent and effortless closing action.

Drawer side 'M' height, 86mm

Drawer side 'K' height, 118mm

Drawer side 'H' height, 150mm

TIP-ON

EASY TO OPEN WITH JUST A TOUCH

Reliable handleless opening.

Handleless fronts are playing a greater and greater role in modern furniture design. With TIP-ON – the mechanical opening support system from Blum – handleless drawers and pull-outs open with just a touch. This enables your customers to experience practical opening comfort in any living area.

Small programme, wide range of applications.

TIP-ON can be combined with all TANDEMBOX and LEGRABOX programme lines and can be used for all standard applications: from standard cabinets to special solutions such as the Blum sink drawers.

- A light touch on the front at any location is enough and the pull-out opens effortlessly
- To close the pull-out, it can be lightly pressed shut or closed with a light push
- TIP-ON consists of a special cabinet profile with a pre-mounted latch and a locking mechanism unit
- The depth adjustment can be carried out tool-free and on an inserted drawer
- The optional synchronisation feature ensures secure opening and closing even for higher and wider fronts

SERVO-DRIVE

More design freedom thanks to the electrical opening support system.

Drawers and high fronted pull-outs open as if by themselves using an electrical drive with just a light touch on the handleless front or a light pull of the handle. Regardless of where and how the front is touched, the pull-out will open allowing full freedom of movement in any living area. Thanks to the addition of BLUMOTION for silent and effortless closing action, we have reached new levels of quality of motion, opening up new design possibilities.

With hand, foot, knee or hip, opening is that easy.

Whether it's the base or wall cabinet, a single system moves handleless pull-outs and lift systems as if by themselves. The individual cabling components are the same. One transformer is all that's required for power supply to the entire kitchen.

Application

- No fixed connection to the drive system
- Can be used without having to change TANDEMBOX or LEGRABOX pull-outs

Assembly

- Tool-free assembly
- Simple cabling
- Separate drilling template

SPACE TOWER

THE ULTIMATE SOLUTION FOR LARDER UNITS

SPACE TOWER offers a high level of design freedom. There are two box systems available with a wide range of design variants – LEGRABOX and TANDEMBOX. If the customer wishes, the design of the entire kitchen can be made consistent or for a feature storage solution the LEGRABOX free SPACE TOWER supplied by ECF will produce a signature talking point.

More space in the kitchen

SPACE TOWER can be accessed with impressive ease, provides ample space for provisions and can be tailored to each customer's individual needs, meaning this well-designed larder unit provides optimum support for everyday kitchen use.

For flexible access

Larder units are used more frequently than you would think. This is why they really need to be convenient to use. Thanks to the SPACE TOWER's pull-outs that can be opened individually, provisions can be stored in this practical cabinet solution in an organised fashion and then accessed easily.

Access from three sides

SPACE TOWER makes use of the full depth of your cabinet. Thanks to full extension, even those provisions stored in the furthest corner of a pull-out are easy to access from the left, right and even the front.

Removal from above

Each full extension can be opened individually and is fully visible from above, meaning you can quickly find the item you need and then remove it from above with ease.

Light operating forces

You only have to open the one pull-out that contains the item you need. The light operating forces make the larder unit incredibly convenient to use.

For flexible storage

Ample storage space is the main priority with SPACE TOWER. This clever cabinet solution therefore makes the best possible use of the space available, with the option of storing and clearly arranging provisions in the pull-out.

High, closed drawer boxes

High, closed drawer boxes ensure that provisions are stored securely, meaning that nothing can fall out from the side or the back.

Flexible interior organization

Inner dividing systems allow you to arrange your storage space optimally, ensuring better organization and visibility. Plus, you can store provisions such as flour, sugar and rice without the risk of them tipping over.

High load bearing capacity

Each and every pull-out boasts an impressive level of stability and high load bearing capacity, up to a total weight of 70 kg, ensuring that even heavy items, such as bottles, are stored securely.

For flexible design

To ensure that every single SPACE TOWER has the wow factor, there are already some handy design tips available for when you are planning your practical solution. Pull-outs that fit flexibly into the cabinet and can be individually adapted to suit different stored items offer additional design options.

In high cabinets, a practical shelf is the highest level and therefore clearly visible from the front. The inner drawer underneath makes it easier to access stored items from the side.

The option to position the pull-outs at different heights within the cabinet guarantees that no items will be too tall to be stored inside.

If the hinges are mounted above the pull-outs, the lowest pull-out can be inserted right at the bottom, turning even those last few centimetres into usable storage space.

Single code solution

The SPACE TOWER solution in either LEGRABOX or TANDEMBOX is offered by ECF pre-assembled in common sizes and can be ordered using a single code.

'F' Height, 241mm

The entire range of LEGRABOX, and all the relevant accessories carry Blum's "lifetime guarantee" – giving you and your customers the assurance that the drawers will work as well on their last day of service as they did on their first.

To make the process of ordering your LEGRABOX pure as simple as possible, we provide a number of options to choose from. Just select the one that best suits your requirements.

Option 1 – Un-assembled Sets

For ease of ordering, a comprehensive range of popular 'F' height LEGRABOX pure configurations can be supplied as unassembled component sets under a single code. All sets include sides, runners with integrated BLUMOTION, back fixing brackets, front fixing brackets and cover caps. Please note that backs and bases are NOT included.

Option 2 – Individual components

Alternatively, 'F' height LEGRABOX pure can be ordered in component form.

1 Drawer sides

2 Runners

3 Back fixing brackets

4 Front fixing brackets

5 Internal cover caps

6 External cover caps

AMBIA-LINE FOR LEGRABOX

ORGANISATION AT ITS BEST

The inner dividing system AMBIA-LINE stands out on account of its slim, minimalist design and diverse setting options. The frames, which can be used universally, are designed to fit the box system LEGRABOX and ensure perfect organisation for any living area. The clearly arranged programme of versatile frames opens up a wealth of design options in terms of the organisation of the insides of furniture and offers practical, everyday functionality

AMBIA-LINE in steel design

Powder-coated steel frames mean that pull-outs and their inner workings become one.

A harmonious look with flexible options

The versatile, high-quality steel frames are extremely flexible and functional. Using them is easy and intuitive. The colour options silk white matt, orion grey matt and terra black matt mean that drawers and their inner workings become one.

Programme

- Drawer frames for nominal lengths of 270–650 mm
- Cutlery insert with Soft-touch material
- High fronted pull-out frames with magnet for connection to the steel back
- Optional: adapter profile for magnetic connection to chipboard back
- Cross gallery for cutting to size and lateral divider

Advantages at a glance

- Frames are easy to use and can be put in any position
- Compact programme of parts that can be used universally
- Elegant design, suitable for LEGRABOX

TANDEMBOX antaro

'M' Height, 83mm

TANDEMBOX antaro's colour co-ordinated components and clean lines present a simple yet effective design.

The entire range of antaro, and all the relevant accessories carry Blum's "lifetime guarantee" – giving you and your customers the assurance that the drawers will work as well on their last day of service as they did on their first.

To make the process of ordering your TANDEMBOX antaro as simple as possible, we provide a number of options to choose from. Just select the one that best suits your requirements.

Option 1 – Pre-Assembled and Boxed

For easy ordering and quick installation, you can order your 'M' height TANDEMBOX antaro pre-assembled and individually boxed ready for immediate installation.

All options come complete with metal backs and colour coordinated MFC bases.

Option 2 – Unassembled component sets

For ease of ordering, a comprehensive range of popular 'M' height TANDEMBOX antaro configurations can be supplied as unassembled component sets under a single code. All sets include sides, runners with integrated BLUMOTION, back fixing brackets, front fixing brackets and cover caps. Please note that backs and bases are NOT included.

Option 3 – Individual Components

Alternatively, 'M' height TANDEMBOX antaro can be ordered in component form.

1 Drawer sides

2 Runners

3 Back fixing bracket

4 Metal back

5 Front fixing brackets

6 Cover Caps

TANDEMBOX antaro

'D' Height, 206mm

Whether you choose an open box with a gallery rail or closed box with a design element, TANDEMBOX antaro provides one system for all applications making assembly simple and tool free.

As with the 'M' height the entire range of antaro, and all the relevant accessories, carry Blum's "lifetime guarantee" – giving you and your customers the assurance that the drawers will work as well on their last day of service as they did on their first.

To make the process of ordering your TANDEMBOX antaro as simple as possible, we provide a number of options to choose from. Just select the one that best suits your requirements.

ORGA-LINE for TANDEMBOX

EVERYTHING YOU NEED AT A GLANCE

ORGA-LINE is a high-quality inner dividing system that works wonders on the interiors of drawers and high fronted pull-outs. It lets you store everything tidily and accessibly - no matter whether cutlery, bottles, pots and pans. Organise your storage space to meet your needs using the ORGA-LINE inner dividing system.

ORGA-LINE for TANDEMBOX high fronted pull-outs

A synergy of function and design

The design and colour of the inner dividing system match each individual programme line: TANDEMBOX intivo, TANDEMBOX antaro and TANDEMBOX plus. All cross and longside dividers can be adapted to contents. The result is amazing organisation and easy access to interiors.

Programme

- Cross and longside dividers match the individual TANDEMBOX programme lines
- Cross dividers and longside dividers
- For cabinet widths of 275 - 1,200 mm

Advantages at a glance

- Clear visibility and tidy interiors
- Dividers adapt flexibly to contents
- Easy access; contents are held firmly and will not tip

ORGA-LINE for TANDEMBOX Drawers

The wow effect for every drawer

The ORGA-LINE inner dividing system has high-quality stainless steel containers and utensil dividers that provide clear visibility and easy access to all contents. Sets can be flexibly arranged in drawers, and items are organised and kept safe. The containers can be easily removed and are designed for dishwasher use. Now that's practical!

Programme

- For cabinet widths of 250 - 1,200 mm
- Full width set from cabinet width of 450 mm
- Special widths can be organised with individual sets
- Kitchen accessories can be added later

Advantages at a glance

- Flexible arrangement, tidy interiors and clear visibility
- Easy access to all contents
- ORGA-LINE containers are designed for dishwasher use

In-Frame Solid Oak Drawers

Assembled

In-frame Solid Oak options are supplied pre-assembled with seamless dovetailed joints.

Simply select the type of drawer and width you require and then chose which runner system you require. The Drawer is designed to operate with both the MOVENTO or TANDEM runners.

- Assembled 4 sided drawer
- Dovetail front and doweled/bored back
- 16mm Solid Oak with 6mm double faced oak veneered MDF base
- Clear natural finish
- Specially designed for Blum MOVENTO or TANDEM runners on front and rear

RUNNER SYSTEMS OVERVIEW

Runner systems for ultra smooth running action.

Blum's runner systems ensure that wooden drawers and pull-outs open and close with ultimate ease. Even heavily laden pull-outs have a feather-light glide and very good sag values. They bring enhanced user convenience to the entire home.

MOVENTO

The MOVENTO runner system boasts a synchronised feather-light glide, 4-dimensional front adjustment and dynamic loading capacities of 40 kg and 60 kg.

TANDEM

TANDEM gives single and full extensions a feather light glide and enhanced user convenience.

Drawers can be equipped with a locking device or hook and peg feature.

STANDARD

STANDARD is a visible, tried and tested roller runner. It only has a few components so assembly is quick and simple.

	To Suit Cabinet (Depth)	Description	Code

The background of the entire page is a close-up photograph of a grey metal assembly device. It features a red handle and a black adjustment knob. The device is shown in a way that highlights its precision and industrial design.

ASSEMBLY DEVICES

For any installation, quality equals precision. To make a real difference for every fitter, our full range of Blum templates, jigs and assembly devices helps you get a perfect fit. They're simply designed, easy to use and highly durable...so with ECF, you can't go wrong.

BLUM TEMPLATES & JIGS

A range of Blum templates, jigs and assembly devices are available from ECF to aid you in manufacture and assembly.

Designed by Blum, these devices help to ensure the precise assembly of Blum products into your furniture and are characterised by their straightforward simplicity, user-friendliness and high durability.

The range featured are all held in stock by ECF, however the full range of Blum templates and assembly devices are also available from ECF.

BLUMZML.0040

Universal drilling templates for AVENTOS, TANDEMBOX, METABOX and TANDEM - can be used for marking and pre-drilling fixing positions for front fixings including gallery; drawer back and base; AVENTOS front fixings; has integrated calibration for variable stop settings; usable in both the workshop or on-site.

BLUM65.1000.01

Universal drilling template for AVENTOS, mounting plates, TANDEMBOX, METABOX and TANDEM - can be used for pre-drilling the fixing positions for cabinet profiles, lift mechanisms, mounting and adaptor plates, calibration for setting height and depth positions, precise transfer of measurements for the left/right cabinet profile suitable for both system screws and chipboard screw assembly; usable in both the workshop and on-site.

BLUMT65.1000.02

Drilling template for TANDEM - can be used for drilling hook positions for the drawer profile, pre-drilling TANDEM locking device fixing positions; usable in both the workshop and on-site.

BLUMM31.1000

ECODrill for Blum hinge drilling patterns - hand-held tool for drilling accurate Blum hinge drilling patterns, variable drilling distance from 2mm-8mm, drilling from marked line is possible, robust and compact design; usable in both the workshop and on-site.

BLUM65.1051.01

Universal individual drilling template for AVENTOS, TANDEMBOX, METABOX and TANDEM - can be used for marking and pre-drilling fixing positions. Has integrated calibration for variable set back dimensions; usable in both the workshop and on-site.

GADDESBY

KITCHENS

THE PERFECT KITCHEN

A delicious recipe for family living

For success this recipe depends on using the finest quality ingredients. Start with SUPERIOR CABINETS from ECF, and dress with the latest European finishes by Egger. Mix these with the very best décor technology with Egger's worktops, together with lifetime guaranteed drawer and lift system technology from Blum. Add a flavour of cutting edge design with sinks, taps and appliances from Caple, and finish with innovative lighting from Sensio.

Serve with a dash of style.

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of our GADDESBY Kitchens brochure.

LIGHTING & ELECTRICAL

A flash of brilliance? From subtle moods to well-lit preparation areas, in a kitchen, bathroom or bedroom it's essential to get your lighting right. You'll find ECF has plenty of bright ideas, with all the latest innovations as well as access to Sensio's complete catalogue.

Arguably the most comprehensive collection of vinyl wrapped doors available to you and your customer. GOSCOTE offers a multitude of finish options and provides an extensive choice of contemporary, traditional and classic styles.

Available made to measure, GOSCOTE provides a solution for any application in the home, Kitchen, Bedroom or Bathroom.

Flexibility is the key to GOSCOTE's continued success, over 2000 different combinations available, complimented with an array of accessories.

Tried and tested concept, endless possibilities.

That's what makes it GOSCOTE.

Call your local Sales Manager for further information or email sales.support@ecf.co for a copy of our brochure.

GENERAL ACCESSORIES

Whatever essential items you need to make your installation easier, smarter and give it the perfect finish, you'll find them at ECF – ranging from decorative shelf brackets, connector bolts and cabinet support legs to tie racks, mirrors and bedroom stools.
