NORDMENDE  
SMART LIVING

Official Appliance Partner  
THE GREAT IRISH  
BAKE OFF

# There's a name for smart living.

## **NordMende. Our history of home appliance technology innovation.**

For over seven decades, NordMende has been helping our customers to live the smart life - with technologies that are truly ground-breaking and testimony to our commitment, quality and excellence.

Combining great technology with our German engineering heritage, we've always looked to deliver the levels of quality and reliability that you've come to expect - at prices that represent real value for money. We know that you demand appliances that make life easier for you - and that put you firmly in control. You also demand products that are kind on the pocket in terms of running costs, and kind to the environment too.

Now imagine all of this coupled with one of the best appliance warranties on the market. Add in cutting edge design and finish and it's clear to see why more and more people just like you, are making themselves at home with NordMende.

Radio H. Mende & Co was founded in 1923 by Otto Hermann Mende in Dresden (Germany). After 1947, his son Martin Mende changed the name to NordMende and built the brand we know today. The company went on to become one of the most prominent German manufacturers of radios, televisions, tape recorders and record players. In parallel with its electronic entertainment products, the brand also offered a complete range of household appliances.

**NORDMENDE**

# Take your share of perfection.

**We make living as enjoyable and simple as you want.**

At NordMende, we don't believe in technology for the sake of technology. Although it's not a perfect world, we can help make it a little more perfect for you so that you can get on with life - while the chores of everyday living take care of themselves. Whether it's washing machines that are seriously up to speed, fridges that are cool as you like, or cookers that speak to the perfectionist in you, we've got the technology to make it happen.

Some of our products have finish options. These are indicated with a suffix code:

Black	- <b>BK</b>
White	- <b>WH</b>
Stainless Steel	- <b>IX</b>

# Cooking

## Cook up Perfection.

### Our Oven features explained.

These streamlined electronic controls are stylish and easy to use. The seamless design also means that keeping your appliance clean is as simple as ever.

Basting and stirring those heavier dishes is no longer an issue with these extending, sliding rails. The telescopic rails enable a safe and easy way to access your dish.

NordMende products are fully guaranteed for 2 years from date of purchase. If you register your product online within 30 days of purchase you'll receive an additional 1 year.

Makes cleaning your oven effortless by heating the oven to a temperature of 500°C, turning all deposits into ash which can be swept away.

Rough surface liners on the inner walls of your oven which absorb any potential food spills, which are burnt off during normal cooking making your oven walls easier to keep clean.

Useful information about how energy efficient your appliance is based on the product's energy consumption. Energy ratings are useful when comparing various models of the same product. An 'A' rated oven is the most efficient and cheapest to run.

Our fan system guarantees a more even distribution of cooking heat. This means quicker cooking times and better results.

This safety feature allows you to lock the buttons on the control panel so that children cannot accidentally change the setting of your appliance when it's on.

Our turbo fan system operates with the fan oven and the grill on simultaneously. This function is ideal for cooking meat or poultry with a rotisserie result and can reduce cooking times by 30%.

A simple to use start/stop programmer that will cook perfect recipes for your family's enjoyment.

### Our Oven functions explained.

#### Fanned Oven Heat

The fan function is used to evenly disperse the heat in an oven. All foods on all racks will be cooked evenly. This function is ideal for cooking multiple dishes.

#### Grill & Fan

Creates a fast circulation of heat and is ideal for large grills, quick browning and sealing juices in. When grilling, the oven door must be closed and the oven temperature should be adjusted to 190°C.

#### Upper & Lower Heat

Heat is diffused by natural convection from the upper and lower heating elements only. Recommended for foods which require the same cooking temperature both internally and externally e.g. Roasts and Pastries.

#### Grill

This cooking method is normal grilling which directs heat downwards onto the food. Suitable for grilling medium or large portions of sausages, bacon, steaks, fish, etc.

#### Lower Heat

This cooking setting is used for more focused heat and control in your oven. It is an ideal method for pizza bases and pastry cases where you need a crispy underside, bain marie or casseroles.

#### Defrost

The fan runs without heat to reduce the defrosting time of frozen foods. The time required to defrost the food will depend on the room temperature, the quantity and type of food. Always check food packaging for instructions.

#### Grill & Lower Heat

The combination of grill with the lower heating element is a good option for pies, quiches and crisping pizzas.

#### Oven Light

The oven light will automatically come on in your oven while it is on and it will remain alight while any of the functions are in use.

Please check individual models for particular features and refer to product manual for particular instructions.

# HOBS

## Our features explained.

Our NordMende cast iron supports are designed to be robust and durable. They position the pan at optimum height above the flame ensuring the even distribution of heat while cooking.

NordMende electric ignition hobs use electric sparks to ignite the surface burners. This is the “clicking sound” audible just before the burner actually lights. Once the gas burner lights, the knob is turned further to modulate the flame size.

For additional safety NordMende gas hobs are fitted with a flame safety device that automatically halts the supply of gas if the flame goes out for any reason.

These streamlined electronic controls are stylish and easy to use. The seamless design also means that keeping your appliance clean is as simple as ever.

This safety feature allows you to lock the buttons on the control panel so that children cannot accidentally change the setting of your appliance when it's on.

NordMende products are fully guaranteed for 2 years from date of purchase. If you register your product online within 30 days of purchase you'll receive an additional 1 year.

\*Functions are dependent on individual models. Please see relevant model specifications.

# EXTRACTOR HOODS

80 CM BLACK GLASS DESIGNER HOOD  
CHBGL803. Find out more on page 13

## Our features explained.

**HEAD  
SAVER DESIGN**

The ergonomics and compact size of Head Saver products gives you more room to move when cooking.

**SMART  
EXTRACTION**

Airflow concentrates around the hood's external perimeter. This cuts energy consumption and reduces noise levels.

NordMende products are fully guaranteed for 2 years from date of purchase. If you register your product online within 30 days of purchase you'll receive an additional 1 year.

**AMBIENT  
LIGHT**

Lighting is a distinctive and defining element designed to enhance every NordMende extractor appliance.

**EASY CLEAN  
FILTERS**

Our easy clean grease filters are manufactured from long life aluminium and can be cleaned in your dishwasher.

**ELECTRONIC  
TOUCH  
CONTROL**

These streamlined electronic controls are stylish and easy to use. The seamless design also means that keeping your appliance clean is as simple as ever.

**TIME  
DELAY**

Our time delay auto shut-off function is useful when you would like the air filtering to continue but can't wait to switch off the appliance.

\*Functions are dependent on individual models. Please see relevant model specifications. All NordMende cooker hood air flow rates are tested with one metre of ducting and one 90 degree bend.

FRENCH DOOR FRIDGE FREEZER  
RFA90IX . Find out more on page 17

# Refrigeration

The ultimate in cool.

**NordMende Refrigerators** take the heat out of running costs.

Fresh. Clean. Brilliance. All words that have been used to describe the NordMende range of refrigeration products.

There's a superb range to choose from, with a huge choice of different configurations available. For under the worktop, our 60cm fridge and freezers are the perfect solution, while our tall combi fridge/freezers let you choose between a 70/30, 60/40 or 50/50 split. Or if you've got a sizeable family, you might choose to opt for a tall full fridge and tall full freezer. And for added convenience, these models are also available in a handy FROST FREE version. Whichever A+ energy-efficient NordMende product you select, you can be confident that these impressive cooling products will maximise the shelf life of your food, while keeping energy usage to a minimum.

## Our features explained.

Evaporator coils in the freezer slightly adjust the temperature periodically to stop frost from forming.

Air is continually circulated around the fridge freezer preventing water vapour from building up and freezing so you never have to manually defrost your appliance.

For safety purposes we only use specially treated tempered glass tested to hold 20kg in weight with 40 kg for shelves above vegetable drawers.

Useful information about how energy efficient your appliance is based on the product's energy and/or water consumption. Energy ratings are useful when comparing various models of the same product. A+++ is the most efficient and cheapest to run.

NordMende products are fully guaranteed for 2 years from date of purchase. If you register your product online within 30 days of purchase you'll receive an additional 1 year.

Please check individual models for particular features.

## NordMende smart cooling technology.

**Safety Glass Shelves**

For safety purposes we only use specially treated tempered glass tested to hold 20kg in weight with 40kg for shelves over vegetable drawers.

**Reversible Doors**

All NordMende refrigerator doors can be opened from the left or right with a simple adjustment.

**Quick Freeze Compartments**

NordMende Quick Freeze Compartments rapidly chill newly introduced food. Ideal for freshly bought items.

**Freezer Door Indicator**

The red indicator on the door handle warns the user when the freezer door is left open.

**Removable Door Racks**

Our door racks can be repositioned to provide additional space for bottles and packages of various heights.

**Transparent Drawers**

Easily see what's cooling in your NordMende fridge with our super strong transparent drawers.

**Spill Proof Shelves**

The easy to clean glass shelves have lipped edges that prevent any spillages from dripping down onto the shelves below.

### 55CM TALL LARDER FRIDGE

# Cool as you like.

RETRO FREESTANDING F/FREEZER RET347RA+ – Two Door, Net Fridge Capacity: 241 Lt, Freezer Capacity: 70 Lt, Auto Defrost Fridge, Top Mount Freezer, A+ Energy Rating, Find out more on page 21 or visit [www.nordmende.ie](http://www.nordmende.ie) or [www.nordmende.co.uk](http://www.nordmende.co.uk)

## The intelligent choice for smart living.

There's so much more to the NordMende Retro Fridge than meets the eye, like an A+ energy rating, and advanced NordMende technology, designed to keep temperatures low and running costs even lower. Plus it comes with a 3 year warranty covering parts and labour. So, as well as being very cool, the NordMende Retro Fridge is also very smart.

# Cleaning

## Delicate or Intense.

### Our Dishwashing Features Explained:

**THIRD RACK**  
Wash more by using the removable upper cutlery basket. The third rack is designed to let you fit and wash more in your dishwasher using the same energy consumption as before.

**DELICATE WASH**  
Choose the delicate wash setting on your dishwasher and relax with the reassurance that this setting will treat your delicate glassware with extra care.

**AQUA CONTROL**  
A function aimed to prevent floods. This water safety system will automatically cut off the water supply to the dishwasher in case of leaks.

**TIME DELAY**  
Save money by setting your wash to come on at night when electricity costs are lower. The time delay option allows you to delay the wash from 1 to 23 hours.

**OVERFLOW PROTECTION**  
Detects potential problems with the water supply and automatically drains the water in the event of a problem.

**INTENSE WASH**  
Wash away the most stubborn stains with our intense wash setting.

**SUPER SILENT**  
Our super silent appliances operate as low as 39dB - that's a little lower than a whisper.

**HALF LOAD**  
NordMende's eco-friendly technology saves energy and reduces water consumption while still ensuring a top class performance when you select the half load option.

Useful information about how energy efficient your appliance is based on the product's energy and/or water consumption. Energy ratings are useful when comparing various models of the same product. A+++ is the most efficient and cheapest to run.

**CHILD LOCK**  
This safety feature allows you to lock the buttons on the control panel so that children cannot accidentally change the setting of your appliance when it's on.

### Our Laundry Features Explained:

**ECO LOGIC HALF LOAD**  
Reduce energy and water consumption and save the environment as well as your bank balance with the eco logic half-load detection system. If there is half or less the amount of laundry in the drum the machine will adjust the run time accordingly saving time, water and energy.

**CHILD LOCK**  
This safety feature allows you to lock the buttons on the control panel so that children cannot accidentally change the setting of your appliance when it's on.

**OVERFLOW PROTECTION**  
Detects potential problems with the water supply and automatically drains the water in the event of a problem.

**WASH & GO**  
With the NordMende Rapid 15 programme you can wash your slightly stained, cotton, coloured and flax textile within only 15 minutes.

**3D LOAD SENSOR**  
In case of unevenly distributed laundry, our 3D Load Sensor redistributes the load inside the drum and adjusts the spin speed to achieve optimum spinning efficiency.

Useful information about how energy efficient your appliance is based on the product's energy and/or water consumption. Energy ratings are useful when comparing various models of the same product. A+++ is the most efficient and cheapest to run.

**TIME DELAY**  
Save money by setting your wash to come at night when electricity is lower. The time delay option allows you to delay the wash from 1 to 23 hours.

# Polished Performer.

DISHWASHER - 10 Programmes, 14 Place Settings, Eco Programme - 5.5 Litre Water Consumption, Auto Door Technology, A+++(-20%)AA Rating. DWLD631IX

- 3 Year Warranty

### TECHNOLOGIES FOR SMART LIVING

**Auto Door** technology automatically opens the door of the dishwasher during the drying process, releasing the hot air from the dishwasher and significantly reducing the energy needed to dry the dishes to **0.67kWh - Less than a daily used 100 W bulb.**

The **Water Box** stores the rinse water used in the last clean cycle of the previous wash, filters it to remove any particles and then uses it as the prewash cycle cleaning water for the next wash. This reduces the water needed in your next wash to **only 5.5 litres.**

## BUILT-IN WASHER DRYERS / WASHING MACHINES

### 6 / 5KG INTEGRATED WASHER DRYER

- 6kg Wash & 5kg Dry Capacity
- Max Spin Speed 1200rpm
- 13 Programmes
- LED Display
- Variable Spin, Temperature & Drying Level • Super Wash
- Reduce Creases
- White • BB Rated
- 3 Year Warranty

REF: 03/334  
WDI651WH

### 7KG INTEGRATED WASHING MACHINE

- 7kg Capacity
- Max Spin Speed 1200rpm
- 15 Programmes
- Variable Spin
- 32 Minute Wash Programme
- Allergy Cycle Option
- White • AB Rated
- 3 Year Warranty

# Customer Service

## That puts you first every time.

All NordMende appliances are built to last, harnessing the very best of technology. And with a 3 Year Parts & Labour warranty on nearly all the appliances featured in this brochure\* you can look forward to a trouble-free life with NordMende.

At NordMende, the quality of our after-sales service is just as important to us as the quality of our products. Naturally, if you choose an appliance supplied by us you will be able to rely upon your appliance to provide you with many years of loyal service and devotion to duty. However, in the event of a problem, you can feel secure in the knowledge that our experienced repair team are dedicated to ensuring an outstanding after sales service for you. NordMende's friendly, expert contact agents are at your assistance 7 days a week, 363 days of the year. Our goal is to answer your call within 20 seconds and in the unlikely event we cannot answer, all our voice-mails are returned in a four hour time frame during busy

periods. Our after-sales service team are committed to developing an outstanding customer journey experience for you and whatever your preference, we will keep you updated via telephone calls, email or text regarding your products' repair journey. We are based right here in the UK or Republic or Ireland with a network of engineers nationwide at your convenience.

0800 Repair are the authorised contractor for repairing all NordMende appliances in Great Britain (mainland UK only). Their network of over 400 engineers, dedicated call centre, parts warehouse and repair centre will ensure a fast reliable service if something should go wrong.

### \*Register To Receive Your Free 3 Year Warranty

All NordMende household appliances are fully guaranteed for 2 years from the date of purchase. If you register online or with our customer service team within 30 days of purchase you will receive an additional 1 year free - so 3 years in total. During that time period any repairs you need will be carried out by our specialised appliance partner 0800 Repair. Your warranty covers major parts only and excludes microwaves and televisions which carry a 1 year parts and labour warranty. Please retain your original proof of purchase to secure your warranty guarantee.

#### How To Register?

Please register online at [www.nordmende.co/warranty-registration](http://www.nordmende.co/warranty-registration) or [www.nordmende.ie/warranty-registration](http://www.nordmende.ie/warranty-registration) or call our advisor on **03330 436704 / 014136400.**

#### Before contacting us please have the following information:

1. Serial number
2. Date of purchase
3. Place of purchase
4. Your full name, address and contact telephone number

#### Aftersales Service

Please contact us online at [www.nordmende.co/contact](http://www.nordmende.co/contact) or [www.nordmende.ie/contact](http://www.nordmende.ie/contact) or call our advisor on **03330 436704 / 014136400.**

#### Before contacting us please have the following information:

1. Serial number
2. The phone number the product was registered against
3. Fault details

#### NordMende Warranty Conditions:

- The Guarantee covers the appliance for use in a normal domestic environment. Institutional or commercial use is not covered.
- The appliance has been correctly installed and used only on the electricity or gas supply stated on the appliance rating plate.
- All Gas appliances must by law be fitted by a Registered Gas Installer
- The appliance has been used in accordance with the manufacturers operating and maintenance guidelines.
- The appliance has not been serviced or tampered with by an unauthorised NordMende service engineer.
- Registration can only be confirmed by entering the products valid serial number.- see our website for instructions on where on your appliance you can locate the serial number.

#### Your NordMende Warranty Does Not Cover:

- Damage or as a result of transportation, improper use or neglect.
- Complaints due to the use of incorrect voltage.
- Failure of the water supply.
- Failure of the electricity supply.
- Failure to operate the appliance in line with the guidelines set out in the instruction manual.
- Replacement of consumable items. E.g. Fuses, bulbs, broken glass, knobs
- Replacement of any cosmetic parts including ceramic hob glass and all appliance doors
- Replacement of any accessories such as oven trays
- Any service calls as a result of lack of maintenance of the appliance, e.g. filter blockages, drainage systems, soap dispensers etc.
- Appliances found to be used in a commercial environment
