Introduction

The kitchen is the functional centre of the home, but at the same time the kitchen can be aesthetically pleasing, personalised and fashionable.

Drawing on many years experience, we have created a brochure showing a range of kitchens which is a collection for today's living.

We have featured traditional designs for those comfortable with this timeless appearance and at the other end of the fashion scale we show the very latest in contemporary looks.

Using modern materials and also natural woods, we display our range of kitchens as catering for all tastes and your personal eye for quality.

Our kitchens show door handles and knobs which have been especially chosen as totally complementary to the overall design effect.

To see our **full** ranges of quality Kitchens, get your **new & free** 3D-Solutions APPs with specially created brochures for iPad, iPhone, android tablets and android phones. Specially developed to fit perfectly in the screen of your mobile devices. Just enter "**3D-solutions**" in the search bar on 'Google Play' for Android, or 'iTunes app store' for Apple.

**Please note that all APPs are updated more frequently than printed brochures & have less limitations and therefore provide a more comprehensive and accurate collection.*
